Date: 30.06.2026

FIYMA RESULT FRAMEWORK

JOYCE KAMANDE-MESPT MEAL MANAGER

In partnership with

EAST AFRICA MARKET DEVELOPMENT ASSOCIATES

MESPT MICRO ENTERPRISES SUPPORT PROGRAMME TRUST

NCBA CLUSA

Women's Empowerment Link

Presentation Outline

1. Programme impact & outcome level rresults
2. Theory of Change + impact Pathways discussions
3. Result Framework, Indicators + programme targets
4. The Foundation Shared Measures Framework
5. Monitoring, evaluation & reporting for learning overview

In partnership with

FIYMA IMPACT +OUTCOMES

At least 250,000 financially disadvantaged youth in work; by working with **2000 market actor SMEs** and 100,000 financially disadvantaged young people in **20,000 youth groups. (*** ***7500 are expected to be persons living with disabilities and 2,500 refugees)***

Programme Outcomes:

- ❑**Outcome 1**: Increased access to affordable credit for MSMEs owned and/ or operated by young financially disadvantaged entrepreneurs through disbursed of US$17 Million.
- ❑**Outcome 2**: 100,000 young financially disadvantaged entrepreneurs, of whom 70% are women, having access to finance and business development services to grow their MSMEs
- ❑**Outcome 3**: 150,000 direct and indirect work opportunities accessed by young financially disadvantaged people.
- ❑**Outcome 4**: At least 20,000 youth groups are operating with increased business sophistication and in some cases registered as new SACCOs to access further financing

Programme implementation pathways

- **Component 1:** Access to finance (MESPT)
- **Component 2:** Entrepreneurship Skills Building and Business Development Services (EAMDA)
- **Component 3a): –** Increase Capacity of SACCOs to Better Serve Program Participants, particularly Women (MESPT/ WEL)
- **Component 3b):** Increase Capacity of Youth Groups to Better Serve Program Participants, particularly Women (NCBA CLUSA/WEL)

FIYMA TOC LOGIC FLOW

IF the financially disadvantaged young men and young women, persons with disabilities and refugees, who are actively engaged in agricultural production, processing, and marketing, have access to affordable and inclusive finance as well as requisite agribusiness support services to strengthen their groups, marketing cooperatives and MSMEs.

THEN they will be better positioned to access increased opportunities for dignified, fulfilling, and meaningful jobs and therefore lead to poverty eradication.

FIYMA: THEORY OF CHANGE

Strengthening access to finance, skills and institutions to unlock decent work and prosperity for financially disadvantaged young women and men in agricultural value chains.

THE FOUR PATHWAYS

1 EXPANDING ACCESS TO AFFORDABLE AND INCLUSIVE FINANCE

- Strengthen SACCOs and market actors
- Develop and deploy youth-responsive financial products
- Improve accessibility, suitability and sustainability of financial services

2 STRENGTHENING ENTERPRISE PERFORMANCE

- Business development services and coaching
- Improve management and financial literacy
- Support informed investment decisions
- Enhance enterprise performance, profitability and resilience

3 CREATING AND EXPANDING WORK OPPORTUNITIES

- Strengthen market linkages and partnerships
- Facilitate access to higher-value markets
- Promote growth of youth and M Market Actor SMEs
- Generate direct and indirect employment opportunities

4 STRENGTHENING COLLECTIVE STRUCTURES FOR SUSTAINABILITY

- Strengthen youth groups, cooperatives and other collective institutions
- Improve governance and organizational capacity
- Support formalization and sustainability
- Sustain access to finance, markets and business support services

OUTCOMES

INCREASED ACCESS TO FINANCE

- More youth access affordable and appropriate loans
- Increased financial inclusion
- Improved financial literacy and confidence
- Stronger, sustainable financial institutions

IMPROVED ENTERPRISE PERFORMANCE

- Better business management practices
- Increased productivity and efficiency
- Higher profitability and business growth
- More resilient and competitive enterprises

EXPANDED WORK OPPORTUNITIES

- More and better quality jobs created
- Increased enterprise growth
- Direct employment for youth
- Indirect employment through value chain expansion

STRONGER COLLECTIVE STRUCTURES

- Effective and accountable groups and cooperatives
- Improved governance and leadership
- Sustainable collective enterprises
- Continued access to services beyond the programme

COMBINED EFFECT: SYSTEMIC CHANGE AT VALUE CHAIN LEVEL

- Stronger financial intermediation
- Better market linkages
- Higher value addition
- Inclusive and equitable participation

DIGNIFIED AND FULFILLING WORK

INCOME
Sustainable earnings that support improved living standards

REPUTATION
Agriculture and agribusiness recognized as credible and respected pathways

RESPECT
Safe, inclusive and equitable working environments free from exploitation and discrimination

PURPOSE
Productive activities that offer growth, progression and a sense of long-term opportunity

IMPACT

250,000

YOUNG WOMEN AND MEN ACCESSING DIGNIFIED AND FULFILLING WORK BY 2030

CONTRIBUTING TO:

- Poverty Reduction and Improved Livelihoods
- Inclusive Economic Growth
- Resilient Agricultural Market Systems

FOUNDATIONS THAT UNDERPIN ALL PATHWAYS

INCLUSION
Gender equality, youth inclusion, PWD and refugee inclusion

SAFEGUARDING
Safe, respectful and harmful-free participation

ACCOUNTABILITY
Transparency, participation and responsiveness

LEARNING & EVIDENCE
Data quality, learning and evidence-based decisions

ADAPTIVE MANAGEMENT
Continuous learning and adaptive adjustments

FIYMA PATHWAYS TO OUTCOMES AND IMPACT

Integrated pathways enabling young women and men to access dignified and fulfilling work in agricultural value chains

CONTEXT: SYSTEMIC CONSTRAINTS

- Limited access to finance and financial services
- Weak enterprise skills and low productivity
- Poor market linkages and low value capture
- Weak collective institutions and governance
- Exclusion and inequality limiting participation

FOUR INTEGRATED, INTERRELATED PATHWAYS

PATHWAY 1 – Expanding Access to Affordable and Inclusive Finance

Young women and men access appropriate, affordable financial products through strengthened SACCOs and market actors.

KEY ACTIVITIES

- Strengthen SACCOs and market actors (governance, systems, financial management)
- Develop and deploy young women and men–responsive financial products
- Improve accessibility and suitability of financial services
- Build capacity of financial providers (credit, risk management, digital systems)
- Financial literacy and credit readiness for young women and men
- Portfolio quality monitoring and mentoring

KEY ASSUMPTIONS

- Financial institutions are willing to offer products that meet the needs of young women and men.
- Liquidity and capital remain available to intermediaries.
- Regulatory environment remains supportive.
- Young women and men continue to demand and use financial services responsibly.

PATHWAY 2 – Strengthening Enterprise Performance

Young women and men and Market Actor SMES have the skills, knowledge and support to run viable and resilient enterprises.

KEY ACTIVITIES

- Provide business development services and coaching
- Improve management practices and financial literacy
- Support business planning and record keeping
- Provide technical and production advisory support
- Facilitate access to technology and appropriate inputs
- Mentoring and follow-up support

KEY ASSUMPTIONS

- Young women and men apply the skills and knowledge in their businesses.
- Enterprises remain viable and market demand continues.
- Access to reliable inputs, technology and services is available.
- Young women and men have time and capacity to engage in training and coaching.

PATHWAY 3 – Creating and Expanding Work Opportunities

Young women and men connect to markets, increase sales, grow and create decent work opportunities.

KEY ACTIVITIES

- Facilitate market linkages and commercial partnerships
- Connect young women and men to buyers, aggregators and processors
- Support quality standards, certification and compliance
- Promote access to higher-value market segments
- Promote growth of young women and men and Market Actor SMEs
- Track and promote direct and indirect employment opportunities

KEY ASSUMPTIONS

- Market demand remains stable or grows.
- Buyers and partners maintain fair and lasting relationships.
- Infrastructure and logistics remain functional.
- Young women and men enterprises can compete and meet market requirements.

PATHWAY 4 – Strengthening Collective Structures for Sustainability

Youth groups, cooperatives and collective institutions are strong, inclusive and sustainable to support long-term participation.

KEY ACTIVITIES

- Strengthen governance and leadership capacity
- Support youth groups, cooperative formalization and registration
- Facilitate business planning and institutional development
- Improve financial management and transparency
- Support linkages to finance, markets and services
- Promote member participation and accountability

KEY ASSUMPTIONS

- Youth groups mature and remain committed.
- Leaders uphold good governance and accountability.
- Collectives achieve financial and operational sustainability.
- Enabling laws and policies support collective action.

OUTCOMES (AREAS OF INFLUENCE)

INCREASED ACCESS TO FINANCE

More young women and men and enterprises access affordable and appropriate financial services.

IMPROVED ENTERPRISE PERFORMANCE

Enterprises are more productive, profitable and resilient.

EXPANDED WORK OPPORTUNITIES

More decent jobs are created directly and indirectly through enterprise and value chain growth.

STRONGER COLLECTIVE STRUCTURES

Collectives are effective, inclusive, well governed and financially sustainable.

IMPACT (OUR CONTRIBUTION)

250,000

YOUNG WOMEN AND MEN ACCESSING DIGNIFIED AND FULFILLING WORK BY 2030

Contributing to:

- Poverty reduction and improved livelihoods
- Inclusive economic growth and decent work
- Resilient agricultural market systems

ENABLING ASSUMPTIONS (ACROSS ALL PATHWAYS)

- Supportive policies and regulatory environment for youth inclusion.
- Viable and growing agricultural markets and value chains.
- Equitable participation of women, persons with disabilities and refugees.
- Safe and inclusive environments free from exploitation and discrimination.
- Economic stability and continued availability of natural resources.

ADAPTIVE MANAGEMENT & LEARNING LOOP

- Continuous monitoring and feedback
- Regular learning reviews and reflection
- Evidence informs adjustments to activities
- Risks and assumptions are tested and managed

CROSS-CUTTING PRINCIPLES APPLIED ACROSS ALL PATHWAYS

- **INCLUSION** – Gender equality, PWD inclusion, refugee inclusion
- **SAFEGUARDING** – Safe, respectful and harm-free participation
- **ACCOUNTABILITY** – Transparency, participation and responsiveness
- **LEARNING & EVIDENCE** – Data quality, learning and evidence-based decisions
- **DATA QUALITY** – High quality data for decision-making and accountability

LEGEND

- ⟷ Mutual reinforcement (double-sided influence)
- → Causal flow (contribution)

Assumptions may not always hold true. Continuous monitoring, learning and adaptive management help FIYMA respond to changes and sustain results.

Critical IF->THEN ASSUMPTION MATRIX

CRITICAL IF -> THEN ASSUMPTIONS A1 - A9 | each a testable link		
A1 Wholesale lending – MESPT disburses USD 13.6M to 35 SACCOs -> SACCOs on-lend to youth agri-preneurs.	**A2 Enterprise investment –** SACCOs lend -> youth invest in value-chain-appropriate enterprises.	**A3 Income generation –** Youth invest -> enterprises generate income at 90-day verification.
A4 DFW threshold – Income generated -> youth income meets KES 17,500/mo.	**A5 Market linkages –** EAMDA links markets -> enterprises keep reliable buyers at fair prices.	**A6 BDS adoption –** BDS delivered -> youth adopt practices beyond the classroom.
A7 Group formalization – Groups supported -> groups progress to SACCO/cooperative.	**A8 Gender & inclusion –** WEL GESI deployed -> women, PWDs & refugees reach equitable outcomes.	**A9 Policy influence –** FIYMA generates evidence -> SACCO sector, county gov & MoA adopt practices.

KILLER ASSUMPTIONS [K] | high impact x high likelihood	
[K] SACCO commitment to youth-inclusive lending holds.	**[K] Young** women overcome household, mobility & social-norm barriers (70% W).
[K] Refugee documentation accepted by SACCOs (UNHCR pathway).	**[K] Off** takers maintain purchase commitments at fair prices.
[K] Groups progress through the 3-band diagnostic to formalization.	**[K] Counties** remain supportive through the 2027 elections.
[K] Labour-saving & income-enhancing technologies are adopted.	

EXTERNAL CONTEXT & ENABLING ENVIRONMENT

Kenya 2027 elections (county political risk) | SASRA SACCO regulatory reforms | climate variability across 6 value chains | currency & input-price volatility | refugee documentation policy (UNHCR/GoK) | Vision 2030 4th MTP alignment.

FIYMA RESULT FRAMEWORK: IMPACT LEVEL

Code	Indicator Statement	SM Code	Yr1	Yr2	Yr3	Yr4	Yr5	Cumulative
IMPACT: At least 250,000 financially disadvantaged youth in work; by working with 2000 market actor SMEs and 100,000 financially disadvantaged young people in 20,000 youth groups. *(* 7500 are expected to be persons living with disabilities and 2,500 refugees)*								
Im 1.1	% increase in household income of programme participants in the targeted value chains.	SM7|SM6	**—**	—	≥10% MTE	—	≥25% Endline	**≥25%**
Im 1.2	% average increase in agricultural productivity among programme participants in the target value chains.	SM7	**—**	—	≥15% MTE	—	≥25% Endline	**≥25%**
Im 1.3	# of youth-led enterprises (owner 18–35) engaging in high end value chain and expanded market access.	SM3|SM4	**0**	320	640	480	160	**1600**
Im 1.4	% growth of agricultural loan portfolio in SACCOs to support the financially disadvantaged young people.	SM8|SM9	**—**	—	≥5%	—	≥10% W	**≥10%**
Im 1.5	% of youth groups successfully formalized and/or registered into SACCOs or cooperatives.	SM8|SM9	**0**	200	450	350	0	**1000**

FIYMA RESULT FRAMEWORK: OUTCOME 1 & 2 LEVEL

Code	Indicator Statement	SM Code	Yr1	Yr2	Yr3	Yr4	Yr5	Cummulative
OUTCOME 1: Increased access to affordable credit — USD 17M total (USD 13.6M SACCOs + USD 3.4M Market Actor SMEs)								
Oc 1.1	Total USD value of FIYMA loan capital accessed programme participants through qualified SACCOs.	SM1|SM8	**3,960,127**	9,398,701	13,600,000	13,600,000	13,600,000	13,600,000
Oc 1.2	Total USD value of FIYMA loans Capital accessed by Market Actor SMEs (cumulative) through MESPT.	SM1|SM4	**990,032**	2,349,676	3,400,000	3,400,000	3,400,000	3,400,000
OUTCOME 2: 100,000 youth accessing finance and BDS (70% women | 7,500 PWDs | 2,500 refugees)								
Oc 2.1a	# unique young people (18–35) who accessed programme Loans through SACCOs	SM1|SM5	**12500**	20000	25000	25000	17500	**100,000**
Oc 2.1b	# of young women and men having accessed entrepreneurial and BDS to grow their enterprises including PWDs and Refugees	SM1|SM5	**25000**	30000	30000	10000	5000	**100.000**
Oc 2.2a	# unique Market Actor SMEs accessing programme loans.	SM1|SM4	**15**	30	40	35	20	**140**
Oc 2.4	# unique Market Actor SMEs adopting new growth oriented business practice as a result of BDS.	SM4|SM8	**0**	320	640	480	160	**1600**
	# of youth led entreprises/ cooperatives adopting growth oriented and profitable agribusiness models	SM3|SM4	**0**	2000	3500	3500	1000	**10,000**
Occ.2.3	% of enterprises demonstrating increased revenue as a result of adopting BDS and market expansion / diversification		**0**	500	800	800	300	**2000**

FIYMA RESULT FRAMEWORK: OUTCOME 3 & 4 LEVEL

Code	Indicator Statement	SM Code	Yr1	Yr2	Yr3	Yr4	Yr5	Cumulative
OUTCOME 3: 250,000 direct & indirect work opportunities								
Oc 3.1	# young women and men (18–35) directly accessing new, additional and/or improved workregarded as Youth-in-Work.	SM5|SM6	10,000	30,000	30,000	20,000	10,000	100,000
	# young women and men (18–35) indirectly accessing new, additional and/or improved work [Youth-in-Work]	SM5|SM6|SM7	15,000	45,000	45,000	30,000	15,000	150,000
	# young women and men (18–35) in Dignified and Fullfilling Work [DFW] - above the minimum national threshold	SM6	15,000	45,000	45,000	30,000	15,000	150,000
OUTCOME 4: 20,000 youth groups operating with increased business sophistication								
Oc 4.1	% of youth groups demonstrating improved business sophistication [evidenced by record keeping, financial management, structured market linkages, technology adoption, value addition and product diversification].	SM4|SM8	2000	4750	5000	4250	0	16000
Oc 4.2	# youth groups/Coops accessing financial services (≥1 active account or loan in last 6 months). Cumulative.	SM5|SM8	0	2000	4000	3000	1000	10,000
Oc 4.3	# youth groups formalised and registered as SACCOs and/ or cooperatives (Commissioner for Cooperatives). Cumulative.	SM8|SM9	0	100	150	200	50	500

FIYMA RESULT FRAMEWORK: OUTPUT 1 & 2 LEVEL

Code	Indicator Statement	SM Code	Yr1	Yr2	Yr3	Yr4	Yr5	Responsible Partner(s)
OUTPUT 1: Increased SACCO lending capacity for affordable, inclusive youth financial services								
Op 1.1	# SACCOs actively lending inclusive program loans to program participants and market actors SMEs.	SM8|SM9	**10**	20	10	5	0	**40**
Op 1.2	# SACCOs with increased organizational capacity to deliver affordable and inclusive loans to financially disadvantaged entrepreneurs and market actors SMEs.	SM8|SM9	**15**	20	10	5		**40**
OUTPUT 2: Increased technical and entrepreneurship skills of youth and Market Actor SMEs

Op 4.4	# of formal partnership agreements established with existing SACCOs and cooperatives to support youth groups transitioning into SACCOs/ Cooperatives	SM8	**6**	15	20	15	0	**56**

Summary of Data Disaggregation Variables

- Gender (Male/Female)
- Age (Absolute Age)
- Disability
- Displacement (Refugees/Internally Displaced)
- Geographical locations (Counties/ Sub counties/ ward / village)
- Rural/ Peri-urban/ Urban (follows Country definitions)
- Enterprises: Women/Youth/PWD/RDP-Led/Owned; Size (MSME based on country specific definition)
- High End Value chains definitions: Green economy, Digital economy, Manufacturing & Agro-processing
- Sector/Thematic Focus (Foundation Definition by BI)
- Intervention type (Foundation Definition by BI)

The Mastercard Foundation Shared Measures 2.0

"How FIYMA Result Framework contributes to its achievement"

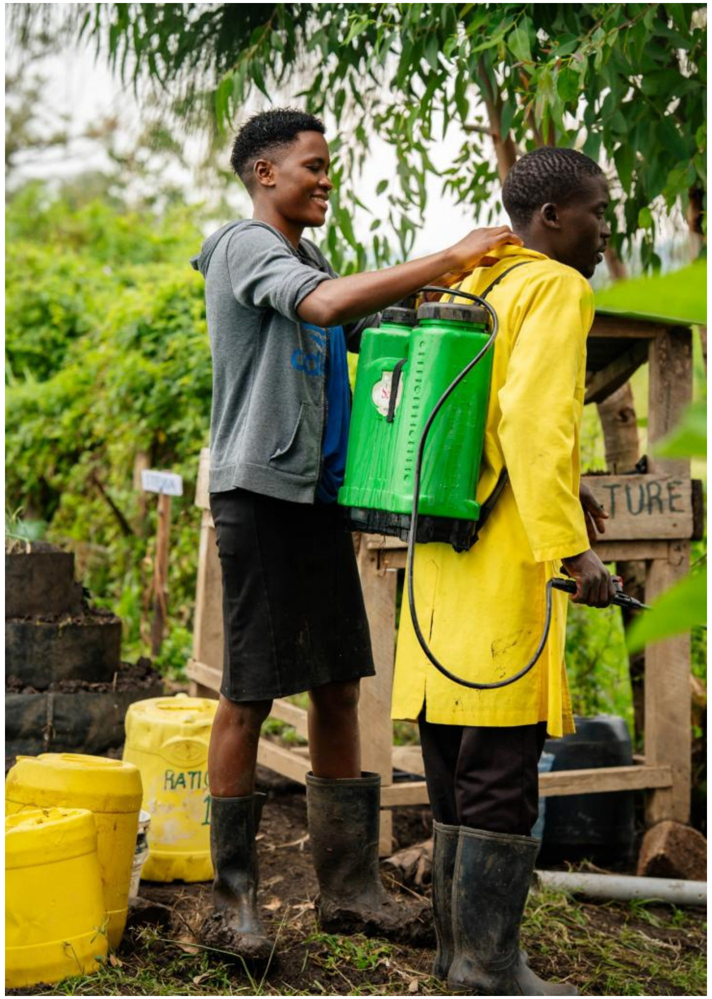
About the Shared Measures 2.0 Framework

The Mastercard Foundation, advances **workforce development** and **entrepreneurship** by expanding access to education, skills and financial programs and services.

The Goal is to support **young women and men to secure and sustain dignified and fulfilling work** – enabling them to thrive and become drivers of transformative change, *sustained* over time **by strong systems and institutions.**

Provides pathway through which the Foundation navigate towards its intended impact: Sustained improvements in the quality of life for young women and men, broader socio-economic effects for their families and communities and the overall health of the economy and society at system level.

The **Shared Measures 2.0 framework** enables the tracking, measurement, and assessment of our performance through **9 Key Measures.** These measures are intended **to be used as relevant and appropriate** to programs and platforms to support adaptive programming.



Overview of the Shared Measures 2.0 framework

Nine Shared Measures guiding how we track progress and learning across programs

Measure	Description
SM 1	Individuals that received and benefited from one or more Foundation-supported work enabling interventions
SM 2	Foundation-supported young people transition into a higher level of education
SM 3	Representation of young people, particularly young women, in higher end value chains/sub-sectors with growing economic potential
SM 4	Foundation-supported enterprises growing and creating work opportunities for youth, particularly young women
SM 5	Foundation-supported youth accessing new, additional, or improved work (wage or self-employment)
SM 6	Foundation-supported young people accessing dignified and fulfilling work
SM 7	Foundation-supported young people reporting improvement in their lives and livelihoods and that of their households
SM 8	Foundation's contribution to strengthening ecosystems to enable and accelerate inclusive and sustainable access to education and dignified and fulfilling work by young people at scale
SM 9	Extent to which partner institutions demonstrate stronger, more inclusive, and sustainable systems – with enhanced capacity to drive access education and dignified and fulfilling work for young women and men

- Individual level
- Enterprise level
- System level

Shared Measures 2.0 Framework: Measures and Metrics

Measure	Description	Metric Code	Metric	Frequency
SM 1	Individuals that received and benefited from one or more Foundation-supported work enabling interventions	SM 1.1	Number of individuals accessing work-enabling services (all categories)	Q
		SM 1.2	% of individuals completing Foundation-supported training, skilling or education interventions	A
		SM 1.3	Foundation-supported participants perceptions of relevance, quality and utility interventions	A
SM 2	Foundation-supported young people transition into a higher level of education	SM 2.1	% of Foundation-supported youth transitioning to the next level of education	A
SM 3	Representation of young people, particularly young women, in higher end value chains/sub-sectors with growing economic potential	SM 3.1	% and stories of Foundation supported youth accessing work in higher end value chains/sub sectors	A
SM 4	Foundation-supported enterprises growing and creating work opportunities for youth, particularly young women	SM 4.1	% of enterprises showing growth through increased revenue	A
		SM 4.2	% of enterprises showing growth through market expansion / diversification	A
		SM 4.3	Average # of work opportunities accessed by youth from Foundation-supported enterprises	A

Data Collection Frequency Key

Q = Quarterly	**BA** = Bi-Annual	**A** = Annual

mastercard foundation

Shared Measures 2.0 Framework: Measures and Metrics

Measure	Description	Metric Code	Metric	Frequency
SM 5	Foundation-supported youth accessing new, additional, or improved work	SM 5.1	Number of employed youth (wage and self employment)	**Q**
SM 6	Foundation-supported young people accessing dignified and fulfilling work	SM 6.1	% of Youth accessing Dignified & Fulfilling Work	**Q**
		SM 6.2	Youth experiences in accessing dignified & fulfilling work	**Q**
SM 7	Foundation-supported young people reporting improvement in their lives and livelihoods and that of their households	SM 7.1	Instances of young people and their households reporting sustainable livelihoods	**BA**
		SM 7.2	% and stories of young people expressing increased agency and voice	**BA**
SM 8	Foundation's contribution to strengthening ecosystems to enable and accelerate inclusive and sustainable access to education and dignified and fulfilling work by young people at scale	SM 8.1	Ways in which Foundation-supported contributions have influenced or advanced policy environments	**BA**
		SM 8.2	Ways in which social and cultural norms have been supported by Foundation initiatives	**BA**
		SM 8.3	Instances of new collaborations and investments catalyzed among ecosystem actors	**BA**
SM 9	Extent to which partner institutions demonstrate stronger, more inclusive, and sustainable systems	SM 9.1	Instances of partner institutional strengthening demonstrating stronger, more inclusive and sustainable systems	**A**

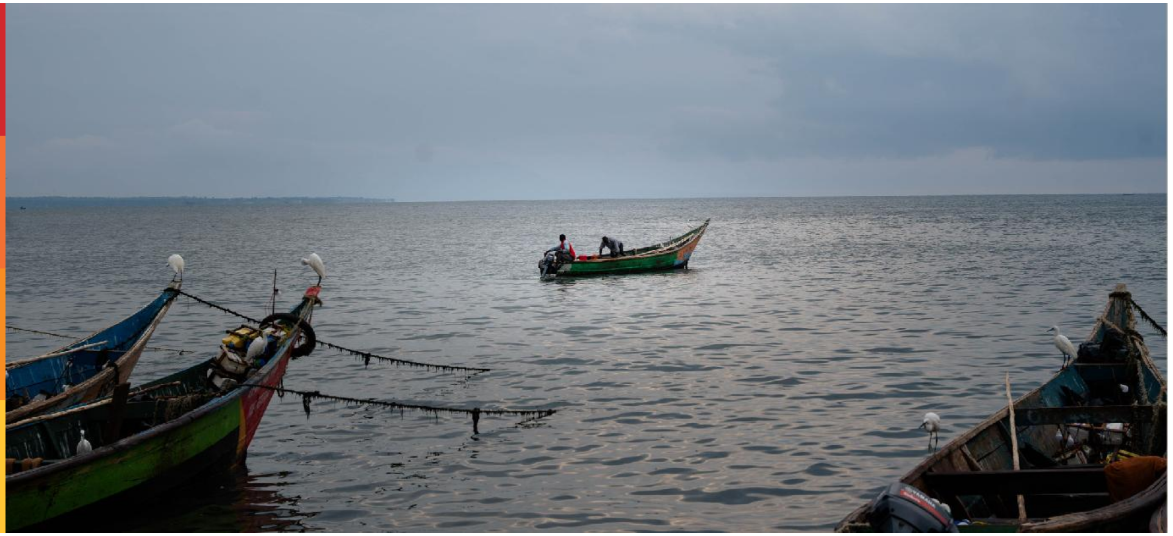
Data Collection Frequency Key

Q = Quarterly	**BA** = Bi-Annual	**A** = Annual

From Work Enabling Outreach to Improved Livelihoods

Young people progression

- Work Enabling Outreach (WEO)
- Youth in Work (YIW)
- Dignified & Fulfilling Work (D&F)
- Improved Lives & Livelihoods



Level 1. Work Enabling Outreach to Improved Livelihoods

Young people progression

Work Enabling Outreach (WEO)

Youth in Work (YIW)

Dignified & Fulfilling Work (D&F)

Improved Lives & Livelihoods

Work-Enabling Outreach is the number of young people who *participate in or benefit from* Foundation-supported interventions designed to *equip them to access work opportunities*

Work-Enabling Outreach = structured engagements that *directly enable work readiness* or access to work pathways

What it includes (examples of interventions)

- Education and skilling
- Access to finance
- Digital tools and platforms
- Market access
- Business development support
- Internships and work exposure
- Other initiatives that build the **skills, resources, and networks** needed to enter or create work

What is NOT Work Enabling Outreach

- Activities designed to raise awareness, share information, or mobilising individuals to participate in a training and /or interest in work opportunities

Level 2: Youth-in-Work

Young People progression

- Work Enabling Outreach (WEO)
- Youth in Work (YIW)
- Dignified & Fulfilling Work (D&F)
- Improved Lives & Livelihoods

Youth-in-Work (YiW) refers to the total number of young people who have gained new, additional, and improved employment, either through self-employment or wage employment, as a direct result of the Foundation support—and to which the Foundation's support has *contributed*

Note: Youth can only be considered to be in work after they secure income generated through the work AND NOT upon completion of a training activity or accessing a Foundation-supported support like access to finance.

A young person is counted as YiW when:

- They begin earning income from **new or additional work**
- They experience **improved** work (e.g., higher income and/or better working conditions)

A young person is not counted as YiW simply because:

- They completed training
- They received mentorship or business support
- They accessed finance or other services
- They benefited from broader enabling work (e.g., policy reform) **without a demonstrated change in their work situation**

mastercard foundation

FIYMA Operational definition of youth in work(YiW)

Unique count of young people meaningfully engaged and earning an income from new, additional and/or improved work [through self or waged employment] as a result of participating, or receiving products or services, which are directly related to a Foundation-supported project or as a result of products and services delivered by the primary programme participants .

1. **New** - Young people who have transitioned into work for the first time or after a period of unemployment or non-engagement in work
2. **Additional** - Young people who were already working but have accessed an extra work opportunity (e.g., a second income-generating activity) that adds to their livelihood.
3. **Improved** - Young people whose existing work conditions have improved such as higher income, respect at workplace, sense of purpose, and reputation through program interventions.

Level 3: Dignified & Fulfilling Work

Young people progression

Work Enabling Outreach (WEO)

Youth in Work (YIW)

Dignified & Fulfilling Work (D&F)

Improved Lives & Livelihoods

The Foundation relied on young people to define what "dignified and fulfilling work" means

2018 Youth Aspiration Survey (Ghana, Kenya, Uganda, Senegal): identified the four markers: (1) *Reliable income, (2) Reputable work, (3) Respect in the workplace, and (4) Sense of purpose*

2022/3 Multi-country baseline study *quantified reliable income* and reinforced the importance of the other three markers.

How we define "reliable income" (anchored in poverty relief):

- "Reliable income" is the **higher of** the **national poverty line** or the **minimum wage +10%**
- Threshold adjusted for inflation

Progressing v accessing:

- **Progressing toward dignified and fulfilling work** as being on the path to this goal. This means a young person either has reliable income without the other markers or *has no reliable income but does experience at least one of the other markers*
- **Accessing dignified and fulfilling work** as having a reliable income and at least one of the other markers

FIYMA Operational definition of Dignified & Fulfilling Work

Unique count of young people reported as Youth-in-Work directly and/or indirectly, with reliable income and experiencing at least one of the other markers: reputable work, workplace respect, and a sense of purpose;

1. **Reliable Income** - Secured earnings above minimum wage +10% threshold waged employment or self-employment that are sufficient, regular, and sustained over time to enable a young person to meet basic living needs and maintain economic stability.
2. **Reputable work** - Work opportunity that is socially acceptable, free from discrimination, valued and contributing positively to the economic & community welfare.
3. **Workplace respect** -A safe, inclusive and supportive work environment where a young person is treated fairly with dignity and appreciated .
4. **Sense of purpose** - Work opportunity where young people are experiencing personal satisfaction, achievement as well as socio-economic and financial independence.

FIYMA JOB OPPORTUNITIES ACROSS AGRICULTURAL VALUE CHAIN NOD

Dignified and fulfilling work for young women and men through enterprise growth, markets and strong institutions

AGRICULTURAL VALUE CHAIN NODES	1. INPUT SUPPLY & SERVICES	2. PRODUCTION (ON-FARM)	3. COLLECTION & AGGREGATION	4. PROCESSING & VALUE ADDITION	5. STORAGE & WAREHOUSING	6. MARKETING & DISTRIBUTION	7. CONSUMPTION & MARKETS
	Seeds, feeds, fertilisers, veterinary products, equipment, finance, advisory services	Crop, livestock, fish and horticulture production	Collection, bulking, quality grading and aggregation	Processing, transforming and packaging into higher-value products	Storage, grading, chilling and warehouse management	Transport, logistics, wholesale, retail and last-mile delivery	Retail, supermarkets, institutions, exporters and end consumers
POSSIBLE JOB CATEGORIES (Individual, MSME & Youth Groups)	Agro-dealer / input supplier Certified seed / fingerling supplier Feed manufacturer Vet / crop health service provider Mechanisation service provider Financial service provider (SACCO, MFI) BDS provider	Dairy farmer Poultry / small livestock rearer Fish farmer / aquaculture operator Irish potato grower Pulse / legume grower Horticulture / fruit & veg grower	Milk collection centre operator Produce aggregator / bulker Fish aggregator Last-mile collector / transporter Warehouse aggregator Group collective marketer	Milk processor / value-adder (yoghurt, ghee, cheese) Meat processor / butchery operator Fish processor / smoker Potato processor (crisps, chips) Pulse cleaner / packager Fruit juice / preserves producer Juice / dried fruit processor SME	Dairy chilling centre operator Commodity warehouse operator Cold storage operator Quality testing technician Warehouse keeper / store manager	Transporter (truck, motorbike, tuk-tuk) Cold-chain logistics provider Wholesaler / trader Retail outlet operator Agri-tech / digital platform operator Exporter / supermarket supplier	Retail / supermarket employee Institutional supplier Restaurant / hotel supplier Export operations staff Sales & marketing personnel
TYPE OF EMPLOYMENT CREATED	Self-employed (Enterprise Owner) Wage Employment Group / Cooperative Employment	Self-employed (Enterprise Owner) Wage Employment Group / Cooperative Employment	Self-employed (Enterprise Owner) Wage Employment Group / Cooperative Employment	Self-employed (Enterprise Owner) Wage Employment Group / Cooperative Employment	Self-employed (Enterprise Owner) Wage Employment Group / Cooperative Employment	Self-employed (Enterprise Owner) Wage Employment Group / Cooperative Employment	Self-employed (Enterprise Owner) Wage Employment Group / Cooperative Employment
KEY SUPPORTS ENABLING JOBS	• Affordable finance • BDS & business skills • Supplier linkages • Quality assurance	• Inputs & equipment • Technical training • Climate-smart practices • Extension services	• Aggregation models • Quality standards • Digital tools • Working capital	• Processing equipment • Packaging & branding • Compliance & certification • Market linkages	• Storage infrastructure • Cold chain systems • Inventory management • Warehouse financing	• Transport & logistics • Market linkages (EAMDA) • Digital platforms • Commercial contracts	• Market intelligence • Standards compliance • Branding & promotion • Export facilitation

Beyond the numbers

The qualitative nature of the impact to which we contribute

Equitable & Inclusive

Intentionality in ensuring that we **reach youth that are marginalized and vulnerable.** This includes creating opportunities for all young people to reach their full potential, without discrimination, bias, or favoritism

Resilient

Strengthening the **capacity of individuals, communities and institutions** to survive, cope and thrive in the face of shocks and stresses, and evolving circumstances and needs over time

Scalable

Contributing to **positive impacts for as many young women and men** as possible, in a manner that is contextually and culturally appropriate and relevant

Sustainable - Ensuring the durability of the positive impacts to which we contribute

This involves:

- **Intentionality in strengthening the conditions for long term sustainability** (such as institutional capabilities, policy and regulatory frameworks, social norms and resource flows); and
- Ensuring that the impact of the Foundation's investments **does not compromise the human, social, economic, and environmental resources for future generations** of young people

Foundation & partners play complementary roles supporting strong adaptive program implementation & MEL

Complementary Partnership

Partner Responsibilities

- Implementation of MEL Plan
- Periodic Narrative Reports (on FLUXX)
- Partner-led Reviews
- Regular Check-ins with Foundation (shared)
- Partner Progress Reports (shared)
- Learning & Adaptive Management (shared)

Foundation Roles

- Supporting Partners through MEL Processes
- Ensuring Shared Understanding of Foundation Practices
- Annual Budget Reallocation
- Field Visits
- Regular Check-ins with Partners (shared)
- Learning & Insights (including QRM)
- Validation & Verification of Data

Reviews & Evaluations (Shared Responsibility) ✓ Periodic Foundation-led Reviews ✓ Partner-led Reviews ✓ Evaluations

Together ► Strong MEL Systems ► Quality Data ► Informed Decisions ► Adaptive Programming ► Greater Impact

Common gaps and challenges in partner MEL

<table>
<tr><th>Areas in which gaps have been identified</th><th>What we are seeing</th><th>Portfolio Risk Implication – Why it matters</th><th>Addressing gaps and challenges</th></tr>
<tr><td>Data Protection & Consent</td><td>Consent language misaligned with Foundation legal requirements; inconsistent collection across sub-partners</td><td>Legal exposure; data-sharing constraints; delayed reporting</td><td rowspan="6">► Legal alignment across all Partners
► Establishing standardized MEL guidance, tools and templates
► Building a shared understanding of Foundation requirements across all Partners
► Tailored accompaniment and support to strengthen partner MEL systems & processes
► Adjustments in Partner MEL budgets, contracts/schedule C etc as required and realistic
► Use of Partner MEL Communities of practice to enable shared learning and knowledge exchange
► Strengthening internal verification & validation (including partner field visits)</td></tr>
<tr><td>Traceability & Double Counting</td><td>Weak participant tracking in multi-stage, consortium, and digital/gig programs; lack of unique IDs</td><td>Inflated or unreliable YiW numbers; credibility risk</td></tr>
<tr><td>YiW Measurement Challenges</td><td>Heavy reliance on multipliers; misaligned pathways; retrofitted YiW targets</td><td>Over/under-reporting YiW; Weak theories of change & impact pathways</td></tr>
<tr><td>Fragmented / Weak MEL Systems</td><td>Lack of standardized MEL processes; Manual tools, inconsistent capacities across consortium members, High MEL staff turnover</td><td>Data quality issues; delayed consolidation; weak institutional memory</td></tr>
<tr><td>Learning & Adaptive Management Gaps</td><td>Limited intentionality around learning (e.g. learning agendas) Limited reflection culture; weak documentation of system-level impact</td><td>Missed course-correction opportunities; slow innovation</td></tr>
<tr><td>Early-Stage / New Programs</td><td>MEL systems under development; limited alignment with SM2.0 / CIEL / CARE</td><td>Future data integrity and comparability risks</td></tr>
