

DETAILED CRITICAL IF -> THEN ASSUMPTIONS MATRIX EXPLAINED

Pathway	IF (Programme Intervention)	THEN (Expected Outcome)	Critical IF → THEN Assumptions
1. Expanding Access to Affordable and Inclusive Finance	If FIYMA strengthens SACCOs and market actors and facilitates access to affordable, youth-responsive financial products	Then financially disadvantaged young women and men will access and productively use financial services to invest in viable agribusiness enterprises.	• SACCOs have sufficient liquidity to lend. • Financial products remain affordable and appropriate. • Young women and men meet minimum lending requirements and are willing to borrow. • Loan repayments remain at sustainable levels.
2. Strengthening Enterprise Performance	If FIYMA provides business development services, coaching and technical support	Then enterprises owned by young women and men become more productive, profitable and resilient.	• Young women and men apply acquired knowledge and skills. • Enterprises have continued access to productive inputs and services. • Enterprises remain commercially viable.
3. Creating and Expanding Work Opportunities	If FIYMA strengthens market linkages and commercial partnerships	Then enterprises expand, resulting in increased work opportunities for young women and men .	• Market demand for agricultural products remains stable. • Enterprises consistently meet buyer requirements. • Buyers maintain commercial relationships with supported enterprises.
4. Strengthening Collective Structures for Sustainability	If FIYMA strengthens governance and institutional capacity of youth groups , cooperatives and collective institutions	Then collective institutions become sustainable platforms for finance, markets and enterprise support.	• Youth groups maintain effective governance. • Members actively participate in collective activities. • Collective institutions remain financially and operationally sustainable.

Henceforth at programme level

IF	THEN	Critical Assumptions
If all four pathways reinforce one another	Then FIYMA contributes to 250,000 young women and men accessing dignified and fulfilling work by 2030.	• Agriculture continues to provide viable economic opportunities. • Policy and economic conditions remain broadly supportive. • Women, persons with disabilities and refugees participate equitably. • Consortium partners use evidence for adaptive management.
