

# FIYMA Program

1<sup>st</sup> July 2026

## Branding Guidelines and Communication Strategy

### COMMUNICATIONS

# Mastercard Foundation Guidelines

---

## Mastercard Foundation

When referring to the consortium strategic partner, always write the name in full, i.e., **Mastercard Foundation**. After the first mention of “**Mastercard Foundation**,” it may be referred to as “**the Foundation**” in subsequent references, provided there is no other foundations mentioned in the communication. You, however, cannot abbreviate it to “MCF” or just refer to it as “Mastercard”.

## Program Name and Logo Lock Up:

Mastercard Foundation and the FIYMA Program should be used consistently across all communications (rather than “FIYMA program” alone). When referring to the partnership.

Eg. The program is a collaborative initiative implemented by Micro Enterprises Support Programme Trust (MESPT), East Africa Market Development Associates (EAMDA), National Cooperative Business Association – Cooperative League of the USA (NCBA–CLUSA), and Women’s Empowerment Link (WEL) in partnership with the Mastercard Foundation.

# The FIYMA Program Brand

---

## Key brand principles:

- Professional
- Respectful
- Hopeful
- Inclusive
- Youth-centered
- Evidence-based

# Preferred Terminology

---

## ► Inclusive language

The program aims to use inclusive and accessible language to communicate progress and impact to various audiences. Below are the most frequently used words in development and how to say them in the Program language.

- Use “**program**” instead of “project”
- Use “**participants**” instead of “beneficiaries”
- Say “**Young women and men**” instead of youth
- Say “**Persons with disabilities**” instead of “People Living with Disabilities” or “PLWDs”

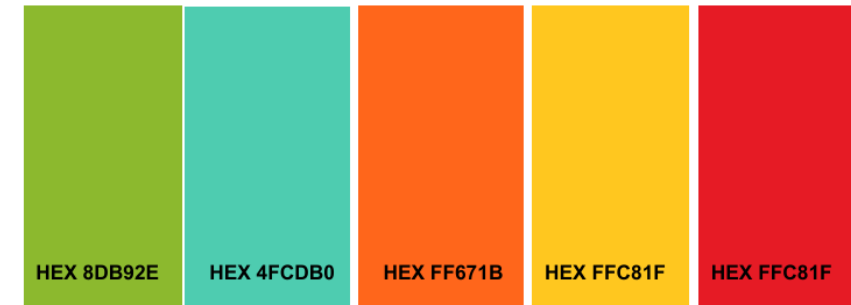

## ► American English

The Program communication utilizes American English. A key distinction is the preference for ‘z’ instead of ‘s’ found in British English. For instance, we write ‘organization’ rather than ‘organisation.’ Additionally, American English often uses ‘color’ instead of ‘colour’ and ‘center’ instead of ‘centre.’

# Font and Color Palette

- ▶ The primary brand font for the Program is **Arial**.
- ▶ The primary color for the Program is green (please refer to the color code provided below). This will act as the main and foundational hue in all its variations.
- ▶ To enhance the Program, brand identity, complementary colors include black, grey, and white. These shades are used for text and background applications.
- ▶ In some cases, often due to production costs, only one color of ink may be available. In such instances, the logo should be reproduced in black. Here, the wordmark must follow the guideline of using a light-colored type on a dark background or a dark-colored type on a light background.

Primary Color Palette

Background Color Palette

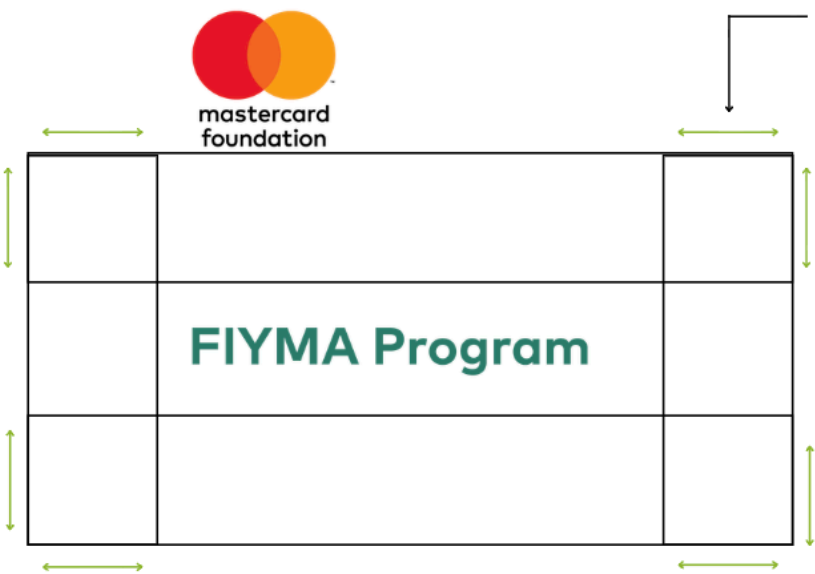

# Branding: Logos

---

- ▶ **ALL** communication featuring the Mastercard Foundation brandmark or mentioning the Foundation name will need to be reviewed by the Foundation before publication or dissemination. This includes but is not limited to program guides, posters, banners, press releases, reports etc.
- ▶ Partners must use the approved logo reproduced from the master artwork.
- ▶ Always place 'In partnership with' lock-up above any partnership logo.
- ▶ The following are not permitted:
  - Stretching or distorting the logo
  - Changing the logo colors
  - Rotating or tilting the logo
  - Rearranging logo elements
  - Adding outlines, shadows, or effects
  - Placing the logo on low-contrast backgrounds
  - Placing text within the clear space

# Branding

**Clear Spacing**  
 Maintaining the appropriate spacing around the wordmark is crucial to avoid overcrowding. This thoughtful spacing contributes to a clean brand appearance for the Program.

**Font**  
 The primary brand font is Mark for MC. If this is unavailable, inaccessible, or cannot be deployed across required platforms, use Arial as the approved fallback font.

**Consortium Partner Co-Branding**  
 Always use the logo lockup below in the footer section of the first page. Do not recreate the lockup or rearrange the logos. Liaise with your Communication Focal Person for the logo lockup with the Program name (as above) and the consortium partner logos (as below).

**Font color**  
 CMYK 81 32 62 12 (Print)  
 RGB 47 123 107 (Digital)  
 HEX 2F7B6B

# Logos: What NOT to do

Do not use the Foundation logo and your organization's logo only.

~~Apply For A Loan Today!~~

Do not use the logo lockup with the Foundation's logo on any communication about loan products.

Do not align the consortium partner logos in alternative formats from what is provided in the logo lockup.

FIYMA Program

Do not add any effects like shadows to the logo lockup.

Do not omit any consortium partner logo in the footer logo lockup.

~~FIYMA Program~~

Do not change the color in the program name or add any effects.

Do not stretch, compress or distort the logo lockup in any way. The formats provided are sufficient for use as is.

FIYMA Program

Do not change the color or distort the placement of the program name to the Foundation's logo.

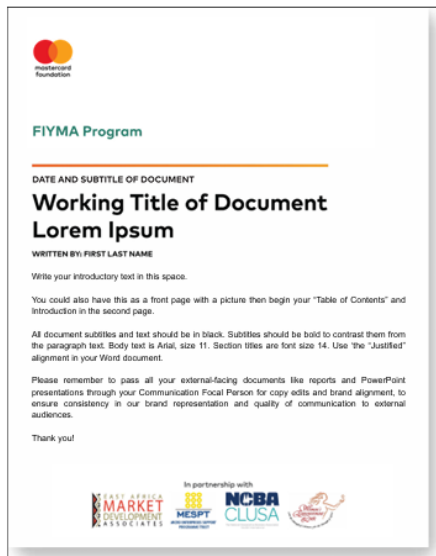

# Brand Application

## Mockup- Word Documents

**Document Branding**  
Use the program logo lockup in the header and footer sections of the first page of your document.

This is already provided in the Word document templates. Liaise with your Communication Focal Person for the approved templates.

**Document Title**  
Font: Arial Bold  
Size: 16  
Color: Black (Default)

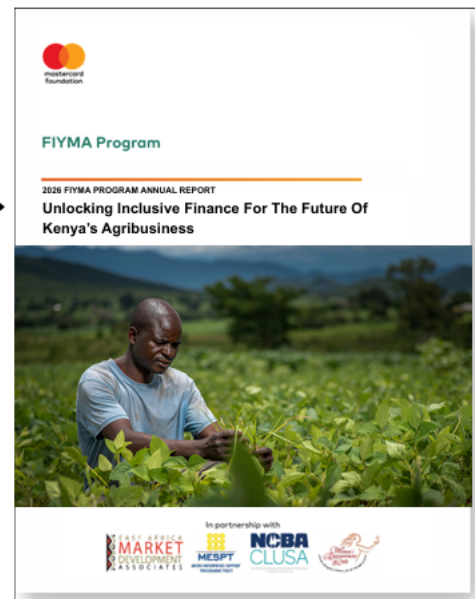

## Mockup- Project Reports

**Report Look and Feel**  
Here is a sample of the front page of a program report. Note the branding that includes the choice of photo, text colour, font type, colors and placement.

Liaise with your Communication Focal Person for the approved templates, and proofreading before sharing with external audiences.

**Report Title**  
Font: Arial Bold  
Size: 16  
Color: Black (Default)

The title should include both the document type in caps at the top, and the title giving insight to what the report is about, below it.

## BRAND APPLICATION

## Mockup- PowerPoint Presentations

**Photo**  
The cover page could include a photo. Please select a clear and powerful image to accompany your presentation introduction.

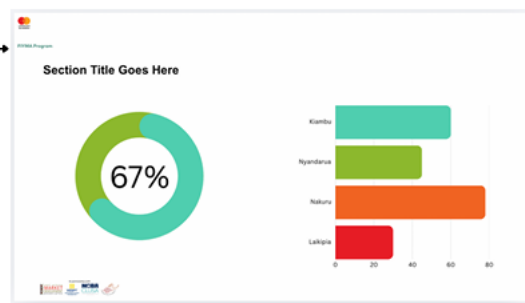

**Title Page**  
Font: Arial Bold  
Color: Black (Default)

Use the PowerPoint template to prepare your presentations. Do not change the placement of any of the aspects in the cover page template.

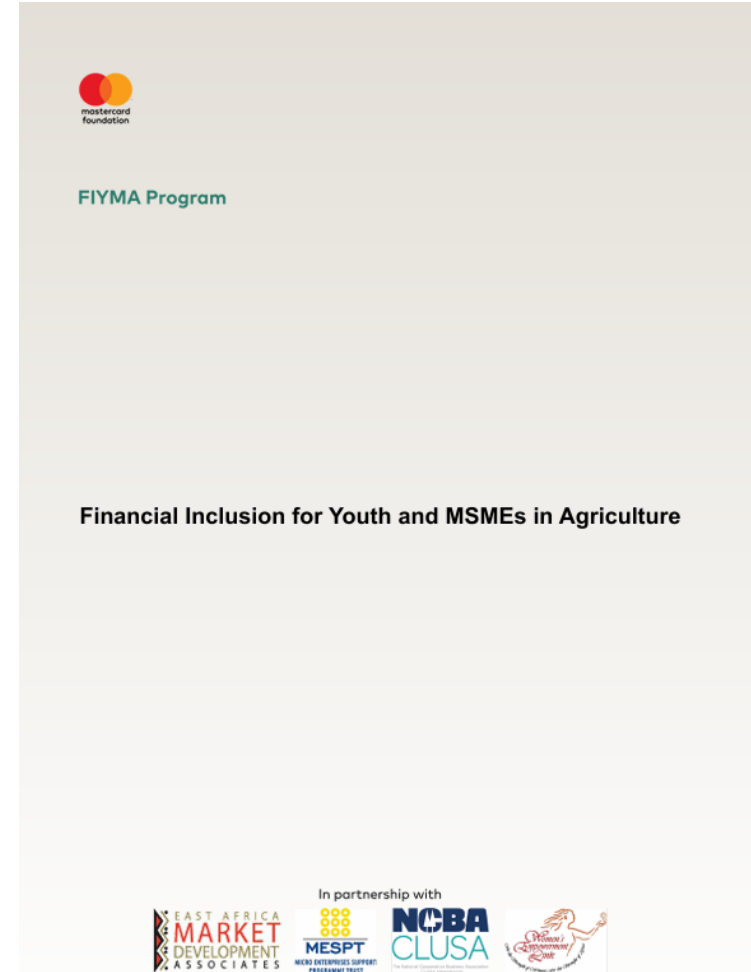

**Graphs**  
Apply the prescribed brand colors to your graphs and charts for brand consistency.

Please share your FIYMA presentations with your Communication Focal Person for their proofreading before you can share it with external audiences.

# Brand Application

## Branded Mockups

# Images and Photography

---

## Consent Collection

- ▶ **ALL** program staff must secure informed consent from **ALL** participants before taking photos or videos. Use the consent form provided by your Communication Focal Person. Photos and videos without the necessary consent forms will not be accepted or used.
- ▶ Do not take or use photos of children, i.e., anyone under the age of 18 years. If people featured are under the age of 18, then consent must be obtained from the person'(s) legal guardian(s).
- ▶ **ALL** consent forms should be in the custody of the respective communication leads for record keeping.
- ▶ Use of AI photos is **NOT** allowed in the Program. We are encouraged to use photos of real people in our communication materials.

# Social Media and Media Engagement

---

## Social Media:

- ▶ Mastercard Foundation's logo is not to be used by partners on their social media pages. Partners can, however, tag the Foundation's pages, as well as use the hashtag #YoungAfricaWorks.
- ▶ All consortium organizations are encouraged to tag each other on social media across program-related activities to strengthen branding and improve overall visibility of the Program.

## Media Engagement:

- ▶ Only authorized program staff should engage with the media, issuing statements or responding on behalf of the program. Always forward all media inquiries to your communication focal person, which will then be escalated for approval
- ▶ All media engagements should be pre-planned in collaboration with the Foundation to ensure message alignment and approval.

# Program Communication Protocol

---

- ▶ Safeguarding is **Non-Negotiable** in the FIYMA Program.
- ▶ Each partner organization must appoint a contact person responsible for coordinating communications in the Communication Working Group.
- ▶ All program communication focal persons for the respective consortium partners are held responsible for ensuring that all program reports, documents, and materials adhere to the FIYMA Program branding and communication guidelines.
- ▶ All communications materials, such as reports and presentations, must be shared with the Communication Focal Person in advance for review and approval to ensure consistency in branding and messaging. Program IEC materials communicating on the Program eg posters, brochures, banners, fact sheets **MUST** be approved by the Foundation.
- ▶ Program team members should inform the Communications Working Group well in advance of any event to allow adequate time for planning, visibility, and media planning.

# Program Communication Protocol

---

- ▶ Communications outputs should align with program messaging and appropriately, acknowledge both the Program and the Mastercard Foundation in text and through branding.
- ▶ Any communication/request that needs to be channeled to the Foundation must be done through the FIYMA Program Director.
- ▶ All partners will use their official institution logos and letterheads when sending out official letters on behalf of the Program. Where a **critical communication** is being sent to a stakeholder, e.g., County Government, the Program Director should be informed in advance before the communication is officially sent.
- ▶ Any communication crisis that arises during program implementation should be communicated **IMMEDIATELY** through the appropriate communication channels.

# Communication Approval Protocols

---

# Why Communication Matters to the FIYMA Program

## Our Communication Goal

**FIYMA Program communication exists to:**

- Influence perceptions
- Shift behavior
- Increase participation
- Build trust
- Demonstrate impact
- Support scaling

## The Story We Are Telling

**NOT:**

- Charity
- Handouts
- “Helping helpless youth”

**INSTEAD:**

- Opportunity
- Enterprise
- Investment
- Innovation
- Growth
- Market participation

# What Makes a Good FIYMA Program Story?

---

## The Challenge

What barriers existed?

## The Action

What support or intervention happened?

## The Result

What changed as a result of the action?

## The Future

What opportunity now exists?

# FIYMA Program Communication Strategy

## Communication Goal

Communication will be applied to catalyze systemic change in youth-inclusive agricultural finance by influencing perceptions, behaviours, and stakeholder actions.

## Communication will:

- Bridge the gap between program design and stakeholder behaviour towards FIYMA's envisioned impact
- Drive adoption, participation, and scale of FIYMA Program interventions
- Demonstrate process, progress, and impact of FIYMA Program interventions, best practices, and promote knowledge sharing and application

## Communication Objectives;

- Positioning FIYMA as an authoritative voice in youth-inclusive agri-finance in Kenya
- Shift perceptions by reframing young people as investable and scalable
- Influence the increase in youth, Persons with disabilities, refugees, and MSME access to finance
- Demonstrate impact by communicating evidence of FIYMA's progress and success

# SWOT Analysis

## Strengths

- Strong FIYMA consortium with credible partners
- Alignment with Mastercard Foundation's Young Africa Works strategy
- Clear focus on system change

## Opportunities:

- Growing youth population
- Increasing demand for food systems transformation
- Digital platforms for scaling communication

## Weaknesses:

- Limited awareness of youth-focused agri-finance models
- Fragmented stakeholder engagement
- Perceived high risk of youth borrowers

## Threats:

- Climate shocks affecting agricultural productivity
- Policy implementation inertia
- Mistrust between youth and financial institutions

# Priority Audience and Engagement Approaches

| Category                  | Stakeholders                                                                                                                             | Strategic Approach                                                                                               |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| High Power, High Interest | Mastercard Foundation, Consortium Partners, Saccos, Cooperatives                                                                         | Close engagement and collaboration. They should be involved in decision making and strategic alignment regularly |
| High Power, Low Interest  | Regulators i.e CBK and SASRA, Government Ministries and County Departments of Agriculture, Youth and Cooperatives in the target counties | Actively influence and keep satisfied; use evidence, policy briefs, and targeted engagement                      |
| Low Power, High Interest  | Young women and men, persons with Disabilities and Refugees in agriculture, MSMEs                                                        | Empower and inform; drive participation, uptake, and advocacy through storytelling and engagement                |
| Low Power Low Interest    | General Public                                                                                                                           | Monitor with minimal effort; maintain basic awareness through broad communication                                |

# FIYMA Program Communication Campaign Phases

| Program Phase                                                      | Campaign           | Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| <b>Impact and Legacy Phase</b><br><br><i>Evidence, Transition and Sustainability</i> | Proof of Possibility, and What Next? | <p><b>Goal:</b> To consolidate and communicate FIYMA Program’s impact to drive sustainability, scale, and long-term systems change beyond the program lifecycle.</p> <p><b>Outcomes:</b></p> <ul style="list-style-type: none"> <li>▪ The FIYMA Program is positioned as a proven, scalable model for youth financial inclusion in agriculture</li> <li>▪ Governments, financial institutions, and partners commit to sustaining and scaling the approach</li> <li>▪ Young people in agriculture are widely seen as bankable, investable, and central to economic growth</li> </ul> <p><b>Audience:</b> National and County Governments, Financial institutions, Mastercard Foundation, Development partners, Private sector investors, Media, Young people and the general public</p> <p><b>Key Actions Triggered:</b></p> <ul style="list-style-type: none"> <li>▪ SACCOs and financial institutions mainstream youth-focused financial products</li> <li>▪ Funding partners fund scale-up or replication of the FIYMA model</li> <li>▪ Ecosystem actors adopt FIYMA Program tools, frameworks, and learnings</li> <li>▪ Continued youth participation in agribusiness and financial systems</li> <li>▪ Governments integrate the FIYMA Program approaches into policy frameworks and budgets</li> </ul> <p><b>Tactics:</b> Final impact report (data + narrative + human stories), National convening and learning event on youth financial inclusion in agribusiness, Transformational impact stories (video + written), Before/after narratives showing system change within SACCOs, Strategic media placements and interviews, Thought leadership positioning FIYMA Program as a reference model, “This Is What Worked” / “What Next?” campaign series</p> <p><b>Transition Communication:</b> Clear messaging on who carries the work forward (SACCOs, government, partners)</p> |

# Monitoring and Evaluation Framework

---

Monitoring and Evaluation will be essential to track progress towards the achievement of the objectives of the Communication strategy.

The key aspects of the monitoring and evaluation framework for the FIYMA Communication Strategy and implementation plan include;

- Monitoring the implementation of the activities as they happen through output indicators.
- Assess the outcomes of these communication strategic objectives.
- Assessing the regular intervals, outcomes, and contribution of communication activities to the overall FIYMA Program goal.

# Risk Mapping and Mitigation

| Risk                                                                                                 | Impact on Communications                                                                                  | Mitigation Measures                                                                                                                                       |
|------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Negative narratives like “Agriculture is too risky and unprofitable for young people” (Reputational) | Undermines the core message that agriculture is a viable business; discourages youth and SACCO engagement | Develop a resilience-focused narrative. Consistently highlight risk management, diversification, and long-term gains; amplify success and lessons learned |
| Program underperformance or slow results (Reputational)                                              | Weak or inconsistent storytelling; loss of credibility with young people, media and partners              | Shift to a learning- focused narrative. Communicate progress, adaptations, and early wins; use data snapshots to show momentum, not just outcomes         |
| Crisis events (climate shocks, loan defaults, political and election risks) (Reputational)           | Media backlash; reinforces negative stereotypes about agri-finance and youth risk                         | Pre-develop “Plan B” messaging. Prepare spokespersons through media training and rapid response statements                                                |

# Risk Mapping and Mitigation

| Risk                                                          | Impact on Communications                                                | Mitigation Measures                                                                                                                             |
|---------------------------------------------------------------|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Inconsistent messaging across partners (Operational)          | Confusion in the market; diluted brand and narrative                    | Create central messaging guide and approval workflows. Run regular partner alignment briefings; provide ready-to-use content templates          |
| Delayed or limited access to field stories/data (Operational) | Content gaps; inability to sustain storytelling cadence                 | Establish content pipelines (monthly story quotas, focal persons per partner); integrate comms into program reporting cycles                    |
| Low media uptake or interest (Operational)                    | Reduced reach and visibility; missed agenda-setting opportunities       | Build media relationships early. Package stories with strong human angles and data; diversify channels (owned, partner, influencer platforms)   |
| Youth disengagement from content (Behavioural)                | Low reach and influence among primary audience; weak uptake of services | Use peer-led storytelling (Agro-Influencers) and grassroots outreach channels. Prioritize relatable content formats (short video, testimonials) |

# Risk Mapping and Mitigation

| Risk                                                           | Impact on Communications                                                    | Mitigation Measures                                                                                                                                       |
|----------------------------------------------------------------|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| SACCOs remain hesitant to target youth (Behavioral)            | Limits credibility of messaging; weak link between comms and actual uptake  | Amplify peer proof. Showcase SACCO impact stories, impact stories from program participants (young people) and testimonials from other institutions       |
| Mismatch between messaging and lived experience (Reputational) | Loss of trust if audiences feel the messaging is unrealistic or exaggerated | Ensure authentic storytelling. Include challenges, not just success; validate stories with field teams before publishing                                  |
| Overpromising impact or results (Reputational)                 | Reputational damage with donors, young people, media, and stakeholders      | Maintain evidence-based communication. Align all claims with verified data, including approved program reports                                            |
| Information overload for stakeholders (Operational)            | Key messages lost; reduced engagement with reports and insights             | Simplify outputs into bite-sized insights, infographics, accessible summaries alongside full reports, tailored content for various audiences and channels |
| Stakeholders engage but do not act (Behavioral)                | Strong visibility but limited real-world change                             | Design clear calls-to-action in all comms. Link content to specific next steps                                                                            |

# FIYMA Program Elevator Pitch

---

## The 'Big Picture' Pitch

Audience: General/Partner/Media

Use this for a 30-second introduction that focuses on the why of the Program.

Kenya's agriculture sector is vital to the economy, but many young people are still locked out, especially when it comes to accessing finance. The FIYMA Program is working to change that by bringing partners together to support 100,000 young people to grow their agribusinesses. It is doing this by improving access to finance, building their enterprise skills, and connecting young people to real market opportunities. At the same time, FIYMA works with SACCOs and market players to better support young agripreneurs. In the end, it's about unlocking potential and building a stronger, more profitable agriculture sector led by young people.

# FIYMA Program Elevator Pitch

---

## The 'System Shifter' Pitch

Audience: Regulators/Financial Institutions

Use this when speaking to Government representatives, CEOs of SACCOs

Many financial institutions see young people in agriculture as high risk. The FIYMA Program is helping change that by showing that with the right financial products and market support, young agripreneurs can be reliable and fast-growing clients. By working closely with SACCOs, the program is helping 20,000 small agribusinesses become more bankable and competitive.

Beyond finance, FIYMA combines funding, enterprise skills training, and market linkages to build a system that truly works for young people, creating a more connected and inclusive agribusiness sector

# FIYMA Program Elevator Pitch

---

## The 'Opportunity' Pitch

Audience: Youth/Young Agripreneurs

Use this at town halls, youth forums, or on the ground.

Young people in agribusiness have the potential to succeed in agribusiness, but many lack the support, skills, and networks needed to grow sustainably. The FIYMA Program is helping young agripreneurs strengthen their businesses through mentorship, entrepreneurship training, business development support, and connections to market opportunities across agricultural value chains. By working together in groups and other key actors within the agricultural sector, young people can build stronger and more sustainable agribusinesses for the future.

# Crisis Communication

---

The Program will develop a Crisis Communication Plan which will provide a framework for preventing, managing, and responding to issues that may threaten the reputation, operations, partnerships, beneficiaries, or stakeholders' confidence in the FIYMA Program.

## Crisis Response Team

A Crisis Response Team will be responsible for coordinating, managing, and communicating the organization's response to any crisis that may threaten its operations, reputation, stakeholders, finances, or beneficiaries.
